

# The EcosySTEM Project: Migration in The Yellowstone & Clark Fork Watersheds

June 27th-29th

Connecting People and Places to Curriculum

## Saturday, June 27th (Travel/YBRA)

Yellowstone Bighorn Research Association, established in 1936, is a nationally recognized and award-winning non-profit field research association located in Red Lodge Montana. Dedicated to boots-on-the-ground experimental education, YBRA has partnered with universities, research institutions, corporations, and private donors to lead multiple generations in earth and life science field studies. An expansive YBRA campus and rustic accommodations create an ideal setting for hands-on learning (<http://www.ybra.org>).

- 8:00am Travel to YBRA from your location
- 12:30 pm Check-in/Lunch @ YBRA
- 1:30pm YBRA Orientation & NGSS Intro/Curriculum Prep
